LETTER OF RECOMMENDATION

Mr. Jameel Abbas s/o Shabbir Hussain is a regular student of BSCS degree program under registration no: S22BSCS100 at Department of Computer Science, University of Baltistan, Skardu. I found him hard working and honest to his studies. I taught him various courses in the discipline of Computer Science. He has done very well and obtained excellent grades in all subjects both in theory and practical.

He has always shown deference and behaved decently with his teachers. The most important thing about his personality is flexibility and adaptability. He continues to evolve, learn, adapt and take good things. He has the ability to work in a team and has always taken on the leading role among members of the group. Beside this, he can also work independently. He is a very mature person and I consider him to be stable mentally.

Mr. Jameel Abbas is determined to face greater obstacles and fierce competition. He is interested in strengthening his academic proficiency by pursuing his higher studies. I don't hesitate to say that if he gets a proper forum, he can do well in the research field.

Sincerely,

Dr. Jawad Usman Arshad
Head of Department,
Department of Computer Science
University of Baltistan Skardu
